

Drug & Alcohol Free Workplace Policy

Policy Reference: HR-POL-008

Policy ID:	HR-POL-008	Version:	2.0
Effective Date:	2024-01-01	Last Reviewed:	2023-09-01
Policy Owner:	HR Director	Approved By:	Chief People Officer
Compliance Requirements:	Yes – All Employees	Next Review:	12 months from effective date

1. Policy Statement

Acme Corporation is committed to maintaining a safe, healthy, and productive work environment. The unlawful manufacture, distribution, dispensation, possession, or use of controlled substances on company premises or during work hours is strictly prohibited.

2. Prohibited Conduct

Prohibited conduct includes: reporting to work under the influence of alcohol or controlled substances, using, possessing, or distributing alcohol or controlled substances on company premises, driving company vehicles under the influence, and testing positive for prohibited substances as outlined in this policy.

3. Prescription Medication

Employees using prescription medications that may impair their ability to perform job duties must inform their manager and HR in advance. Medical information is kept confidential. Accommodations will be considered. Employees must ensure medications are lawfully prescribed and used only as directed.

4. Drug Testing Program

The company conducts the following types of drug testing: pre-employment (all offers conditional on negative test), post-accident (any accident resulting in injury or significant property damage), reasonable suspicion (based on observable behavior indicators), and random (for safety-sensitive positions only). Testing conducted by certified third-party provider.

5. Positive Test Results

A confirmed positive test result may result in: first offense – mandatory EAP referral and 30-day suspension without pay plus return-to-duty test; second offense – termination of employment. Employees in safety-sensitive roles may be immediately removed from duties pending investigation. Test results are kept confidential in a separate medical file.

6. Employee Assistance Program

The company encourages employees with substance use disorders to seek help through the EAP before a policy violation occurs. EAP counseling is confidential and does not affect employment status. Employees who self-refer to treatment are eligible for medical leave. Contact EAP at 1-800-EAP-HELP (available 24/7).

7. Legal Cannabis

Even where recreational or medical cannabis is legal under state law, employees are still prohibited from: being impaired during work hours, using cannabis on company property, or testing positive for THC in a post-accident or reasonable suspicion test. The company complies with applicable state laws regarding medical marijuana accommodations.
