

Performance Improvement Plan (PIP) Process

Department:	Human Resources	Document Owner:	HR Business Partner Lead
Version:	2.1	Effective Date:	2023-10-01
Document ID:	SOP-HR-002	Review Cycle:	Annual

1. Purpose

Provide a structured, fair, and documented process for addressing employee performance issues through a Performance Improvement Plan.

2. Scope

All permanent employees with documented performance concerns. Does not apply to employees in probationary period (see SOP-HR-004).

3. Procedure

Step 1: Identify Performance Concern

Manager identifies specific, measurable performance deficiencies. Performance concerns must be documented with examples and dates. Consult with HR Business Partner before initiating PIP. Review previous feedback and coaching documentation.

Step 2: Develop PIP Document

HR and manager collaboratively create PIP document including: specific deficiencies, measurable improvement goals, timeline (typically 30/60/90 days), support resources, and consequence if not met. Legal review required for termination-track PIPs.

Step 3: PIP Meeting with Employee

Manager and HR conduct meeting to present PIP. Explain expectations clearly and answer questions. Employee signs acknowledgment (does not indicate agreement). Provide employee copy. Document meeting in employee file.

Step 4: Active PIP Period

Manager provides weekly check-ins documented in writing. Manager notes progress or continued deficiencies. Adjust support resources if good faith effort evident. HR monitors timeline and documents.

Step 5: PIP Outcome Assessment

At end of PIP period, manager and HR assess if goals met. Three outcomes: (1) Goals met – PIP closed, return to normal performance management; (2) Partial improvement – extend PIP up to 30 days; (3) Goals not met –

initiate separation process.

Step 6: Separation Process (if applicable)

HR and Legal review separation documentation. Prepare separation agreement if applicable. Schedule termination meeting with manager and HR present. Process final pay per state law requirements.
