

Network Access & VPN Setup

Department:	IT Infrastructure	Owner:	Network Admin
Version:	2.0	Doc ID:	SOP-IT-004

1. Purpose

Define the process for granting and configuring VPN and network access for employees and contractors.

2. Scope

All employees and contractors requiring remote network access.

3. Procedure

Step 1: Initiation & Request

Relevant stakeholder submits request through the designated channel. Initial review conducted by IT Infrastructure team within 1 business day. Assign ticket or tracking ID to request.

Step 2: Review & Validation

Verify all required information and supporting documentation is present. Conduct initial assessment against policy requirements. Flag any missing information and request from submitter.

Step 3: Processing & Execution

Authorized IT Infrastructure team member processes the request following all applicable policies. Document all actions taken with timestamps. Escalate to supervisor if exceptions arise.

Step 4: Approval Workflow

Route to appropriate approver based on type and threshold. Approver reviews within SLA and approves, rejects, or returns for revision. Document approval decision in system of record.

Step 5: Completion & Communication

Notify requestor of outcome via official communication channel. Update all relevant systems and records. File documentation per retention policy.

Step 6: Quality Check & Closure

Verify all checklist items complete. Close request and capture any feedback. Escalate unresolved issues to manager.
