

Quality Assurance & Audit

Department:	Quality / Operations	Owner:	QA Director
Version:	2.0	Doc ID:	SOP-OPS-006

1. Purpose

Establish a systematic approach to internal quality audits to identify process gaps and drive improvement.

2. Scope

All operational departments subject to ISO or regulatory audit requirements.

3. Procedure

Step 1: Initiation & Request

Relevant stakeholder submits request through the designated channel. Initial review conducted by Quality / Operations team within 1 business day. Assign ticket or tracking ID to request.

Step 2: Review & Validation

Verify all required information and supporting documentation is present. Conduct initial assessment against policy requirements. Flag any missing information and request from submitter.

Step 3: Processing & Execution

Authorized Quality / Operations team member processes the request following all applicable policies. Document all actions taken with timestamps. Escalate to supervisor if exceptions arise.

Step 4: Approval Workflow

Route to appropriate approver based on type and threshold. Approver reviews within SLA and approves, rejects, or returns for revision. Document approval decision in system of record.

Step 5: Completion & Communication

Notify requestor of outcome via official communication channel. Update all relevant systems and records. File documentation per retention policy.

Step 6: Quality Check & Closure

Verify all checklist items complete. Close request and capture any feedback. Escalate unresolved issues to manager.
